

# POLYCARBONATE INTERIOR PROTECTOR 105x58 mm (5 pcs.)

Ref. 10198

The **Polycarbonate INT. PROT. 106x58 mm (5 pcs.)** is a high-resistance replacement designed to protect the rear part of the HELLMET R-05 welding helmet. Made of **high-quality transparent polycarbonate**, it stands out for its **resistance to impacts, heat, and chemical agents**. Its lightweight design makes handling easier without compromising durability or visual clarity, ideal for demanding environments. Compatible and easy to cut, it is a practical and safe solution for professionals in the field.

## Main Features:

- ✓ **Perfect Compatibility:** Specifically designed as a rear protector for the HELLMET R-05 welding helmet.
- ✓ **High Impact Resistance:** Withstands shocks and projected particles, ensuring greater safety.
- ✓ **Superior Lightness:** Much lighter than glass or conventional plastics, without losing robustness.
- ✓ **Optical Transparency:** Provides excellent visibility without distortions.
- ✓ **Heat Resistant:** Suitable for welding environments with high temperatures.
- ✓ **Extended Durability:** Built to withstand continuous wear in professional use.
- ✓ **Chemical Tolerance:** Ideal for environments with exposure to industrial products.
- ✓ **Outdoor Use Without Wear:** High weather resistance, even under extreme conditions.
- ✓ **Ease of Use:** Can be cut and adjusted with common tools.
